**Attention:** Ms. Dominique Roland, Head of General Aviation & Remotely Piloted Aircraft Systems (RPAS) Department

**Subject:** Acceptance of EASA STC 10036196, date of issuance August 19, 2011

Dear Ms. Roland:

This is in response to your letter dated January 20, 2017 requesting Transport Canada validation of the subject STC.

In accordance with our current policy associated with the review of foreign STCs, some STCs applicable to certain categories of aircraft may be accepted solely on the basis of their foreign certification, and do not require the issue of a corresponding certificate by Transport Canada. The subject STC falls within these criteria.

This STC will be entered in the national index of STCs that have been reviewed and accepted by Transport Canada for installation on Canadian-registered aeronautical products.

This letter confirms formal acceptance of the referenced STC by Transport Canada.

Yours truly,

Alex Pompei  
Technical Team Lead - Engineering
