

	SERVICE LETTER SLE No. 77 - Original Issue	DOA No. EASA.21J.020
--	---	-------------------------

Subject: Length of the spinner fixture screws installed on spinner assembly part number P-1741-()

Affected Propeller: MTV-27-1-N-C-F-R(P)/CFR260-65b with spinner assembly part number P-1741-()

Reason: The length of the spinner screw C-306-9 could cause wear of the de-ice cables which are installed from the spinner bulk head to the connecting terminal on the blade counterweight clamp.

Action: The 10 red marked spinner screws C-306-9 (overall length 16,5 mm / 0,65 inch) should be replaced by the 10 shorter spinner screws C-306-8 (overall length 15 mm / 0,59 inch) which fixing the filler plate on spinner dome between front and rear spinner bulkhead.
